Subject: RE: Agenda Items for today's 1pm meeting on stormwater
Date: 11/02/2006 12:24 PM

Thank you Valerie for taking the initiative to pull together an agenda. I would also like to discuss/tabulate the specific data needs/desires under each program (LWG RI/FS, DEQ Source Control, and City IGA) to see if there are overlaps and areas where efficiencies can be gained. Jim.

Subject: Agenda Items for today's 1pm meeting on stormwater

Hi all -

I'm not sure who all will be at this meeting, so this might be a more limited distribution. I haven't seen an agenda circulated for today's meeting, so I thought I would send out some possible agenda items that may be suitable for today's management meeting on stormwater. If you have others, or if anyone's got an idea of the agenda in their heads, please let me know!

The meeting is at DEQ NWR, conference room A/B on the 4th floor.

We can possibly use the LWG's conference line, which is

Non-

Non-

1. DEQ's Program
 - list of sampling sites and current approach
2. Current LWG/City proposals
 - are there other options?
3. Schedule
 - data timing, implications and impacts
4. Path Forward

cheers
valerie
